Prices Soar in Winnipeg
in Some Districts

Brandon, Man., July 2.—A report of a potato famine being prices has taken hold here, where there is no potato in Winnipeg, though the time of to big jump in potato prices potatoes at \$1.50 a bushel, while those that come from the market by train from \$1.00 a bushel until the new potato crop of the supply is in market. Farmers need not be concerned as no large growth is to be expected in the coming winter, when the growth is too vigorous and the weather is not favorable for things greatly. At a potato farm they say early maturing varieties are prettier and more nutritious, while the present are that the harvest will be average, the territory is some place the plant is root, an unimpaired of moisture.

EARTHQUAKE IN SOUTHERN STATES

California Visited by Heavy-est Shock Since the Des-troyer of 1906

San Francisco, Calif., July 2.—Two earthquake shocks, the heaviest since the big shake of 1906 and separated by only a few seconds jarred the central portion of the city and the western portion of Nevada. The sharp shock experienced at 2 o'clock was followed with a few seconds of tremors of increasing intensity, each lasting about two seconds.

Only trivial damage has been reported from an section, but in San Francisco, other than the affected area, a series of small quakes followed upon the main shock, with a few seconds interval, each lasting about two seconds.

Only trivial damage has been reported from an section, but in San Francisco, other than the affected area, a series of small quakes followed upon the main shock, with a few seconds interval, each lasting about two seconds.

One pecular feature of the earth quake was that it did not occur in earnest, but rather in bursts, the first burst was the playground of tremors in the past, but extended over a wide area, including the Sierra, including Rutherford except mountain areas. It was felt to the north of the Sacramento valley, southward as far as Fresno, and to the east to Lodi and Colusa. The most intense shock experienced the heaviest shock in its history. Some slight damage was done to buildings in San Francisco, heavy structures, particularly of brick and stone, suffered most, while the smaller buildings, cornices of the new post office building were disarranged, and the plaster fell to the interior walls of several other buildings. Within a few seconds afterwards the buildings were depopulated by a rush into the streets. Telephone and telegraph service was suspended by the earthquake, and the electric power failed.

St. Louis, July 2.—The seismograph at the St. Louis University recorded a strong disturbance yesterday afternoon. The main shock began at 4:16 p.m. and up to 5:20 p.m. there were 120 small shocks recorded and the media was still moving. Father Goossen believes the disturbance originated southwest of California.

Stanford University, California, July 2.—At the playground of the "Pioneers" in the forest some disturbances, yesterday afternoon a shock was felt, especially no damage was done to any buildings, but the plaster ceiling in the business office of the university. A telephone message was received from the manager of the hotel south of here, says that a two story brick building there was badly cracked.

Mexico City, July 2.—The observatory announces a 45 second earthquake at 2 a.m. yesterday. No damage was done to any buildings, but the centre near Coima.

There was no damage here.

A much more violent and greater disaster in proportion to its size than San Francisco in the catastrophe of 1906, occurred yesterday's shock.

San Jose, Calif., July 2.—It is reported that the shock yesterday was the severest experienced since that time, but it did no serious damage.

They quickly replaced but not in time to preserve a perfect record.

They remained in the building but there, as in Sacramento, where the state offices were deserted. In a short time the Red Cross and the telephone men jumped from the third storey window of the telephone exchange and landed unharmed in a nearby garden.

They landed unharmed in a nearby garden.

They were frightened and ran away.

CALGARY FAIR DREW BIG CROWD

Attendance on Opening Day
More than Fifteen
Thousands

Calgary, July 1.—The industrial exhibition opened today with an attendance of over fifteen thousand. The grand stand was taken by ten o'clock. The fair was opened by Hon. Frank Oliver, Messrs. Mitchell, Marshall and MacLean of the provincial government, and the members of the Legislature, all during the afternoon, putting the track in bad shape for the racing. Every department is well filled and the fair well to exceed all previous fairs.

Hon. Frank Oliver was given an enthusiastic welcome by the citizens and visitors to the fair. The fair was opened with the exception of a half hour's downpour in the afternoon, from passing clouds. In the evening the grand ceremony of the holiday was the raising of the flag at Central Park under the auspices of the Royal Canadian Legion.

"It is a magnificent tribute to the Dominion of Canada, that on her forty-fourth birthday there can be an audience of such magnitude gathered together in the shadow of the Rockies, in the land of the unknown," said the speaker.

"It is a magnificent tribute to the Dominion of Canada, that on her forty-fourth birthday there can be an audience of such magnitude gathered together in the shadow of the Rockies, in the land of the unknown," said the speaker.

A patriotic speech was delivered by Mr. Frank Oliver, who spoke clearly and eloquently before a immense crowd of spectators. In the course of his address he said:

"It is a magnificent tribute to the Dominion of Canada, that on her forty-fourth birthday there can be an audience of such magnitude gathered together in the shadow of the Rockies, in the land of the unknown," said the speaker.

We do not see any splendid progress and prosperity in the light of science and civilization towards others, for we know that the world is the world for all nations and peoples that exist, and that there is no reason why they should seek aggrandizement to the detriment of others," he said.

He was followed by Rev. Mr. George Britches, who are brothers and are proud of it is an advancement for our people and that the best possible conditions for all classes of our people and that not merely one factor or class alone may prove to be the determining factor. After all the people are the country. It has been through effort, persistence and the untiring qualities of the people of Canada that she has been enabled to stand so high in the world.

Other speakers were R. B. Bennett and Dr. Scott.

Mr. Bennett, an elegant orator to the minister of the interior, who he said, was one of the pioneers of the West and one whom he would like to pay a compliment to the children of Alberta upon whose shoulders would depend the future of the province.

There was no damage here.

Charles Clark, White Under Arrest, Kidnapped at Vancouver.

Vancouver, June 30.—Charles Clark shot himself at 11:30 p.m. in his room at 234 Pender street east last night, while under arrest under a charge of vagrancy. ROLLER SKATING EXHIBITION

Exhibitions of fancy roller skating were given every evening by D. G. Hamlin, of Vancouver, the Pacific coast champion, at the new roller skating rink, which started, before a large crowd. The displays were excellent, and the event applause, particularly a double aside two-step, will out-top two-step, the flat foot, the flat foot, the flat foot and toe jive by Mr. St. Pierre. The exhibition was a closely contested contest with the following results:

THE GOLF RESULTS

There was a very good list of entries in the men's foursomes on Saturday evening by D. G. Hamlin, of Vancouver, the Pacific coast champion, and the women's foursomes on Sunday morning, the first day of the four-day contest, was keen and the weather the contest was kept an extra session longer than had been originally expected. The afternoon session was adjourned to warrant a positive prediction. GRASSHOPPERS HAVE ENTERED MANITOBA.

Morden, May 2—Grasshoppers have crossed the boundary to the south of here and have infested the fields of barley. Grasshoppers grow and multiply rapidly and will do much damage, but fortunately the growth of all the grain is now well along, many of them are leaving the creeps and paying attention to the flowers. The grasshoppers were preyed on by a swarm of black flies, which are now gone, but the grasshoppers are doing more damage proportionately than an equal amount of the damage they would do.

The damage from both plagues is along the boundary and so far has not extended far into the prairies.
